

## **JESUS Film App Witnessing**

The *JESUS* film has been available on video and DVD for years. Multilanguage DVDs are great for distributing at large outreaches or giving away personally. Now the *JESUS* film products – every film in every language ever made – are available to stream or download through a free app for smart phones and iPads and on a website.

It's not just the full-length films. It's also individual scenes, like Jesus raising Jairus' daughter, or calming the storm; it's faith journey stories of athletes; it's discipleship episodes like "Following Jesus India" and "Rivka;" it's visual parables (short films on spiritual themes). One of the short films very suitable for South Asian audiences is called "Marea" (The Tide).

Go to your app store and search for Jesus Film app. Or go to [www.jesusfilm.org](http://www.jesusfilm.org) and search for the app. Then use it to share Christ in the heart language of people you meet easily and quickly.

### **Beginning a conversation using the app**

Invite them to view a short Bible video. Tell them you will want their opinion on it.

### **Engaging the person in a spiritual discussion.**

Watch the film together, get their opinions on it, their understanding of what they saw.

### **Five key questions**

Ask these after any film segment or portion of Scripture:

1. What did you like best about this short Bible video?
2. What did you learn about Jesus from the video?
3. What did you learn about people from the video?
4. Is there anything you didn't like?
5. What is one thing you think God may want you to do as a result of what you've seen in this video?

### **Concluding the witnessing opportunity.**

Ask to meet again to discuss the Bible, invite to church, give Bible tract or gospel portion, exchange contacts.
